

# Strategic Planning

## That Will Knock Your Socks Off!

## It's time to start PLANNING!

Innovative strategy, and flawless implementation belong to those that take strategic planning to a whole new level.

But, how do you get there without resorting to the same old meeting format and a dull, inflexible, tangle of spreadsheets?

How do you encourage your team to think beyond the ordinary and create a strategy guaranteed to deliver on both the top and bottom line?

You need a **professionally facilitated session** that will bring out both the most strategic, and the most creative thinking within your team!

Trained and certified by the Creative Problem Solving Institute, Barefoot Brainstorming brings a unique combination of divergent and convergent thinking tools to your strategic planning session that will guarantee success!

### Our clients are thrilled with the results:

"A big thanks for today. A tough group typically, and you had them at hello..."

Lots of comments from the team about it being the best strategic planning session they have ever attended.

A big thanks for making day one shine bright, go by fast, smoothly and efficiently and for helping ensure we got to a solid place by EOD with the Vision statement. It was great to see the collaboration under your direction.

You are indeed the super star of facilitation! A million thanks once again".
